THE SITUATION AT MANILA.

It is a Very Difficult Problem For the Administration to Solve.

ARE MASSING OUR TROOPS.

The Seven Thousand Men Now at San Francisco Will Start East Immediately.

PEACE NEGOTIATIONS MAY BE EFFECTED.

By the Terms of the Armistice Neither Side Can Move Any More Troops Into the Disputed Territory.

Shrewd Diplomacy.

Washington, Sept. 9.—The announcement that war is imminent with the Philippine insurgents created a great sensation in Washington.

The situation was discussed at the White House by the secretary of war, the acting secretary of the navy and the president and its gravity was acknowledged. Preparations were being made to hasten reinforcements to the Americans at Manila. This is of itself a question of the utmost diplomatic importance. An armistice is now in force between this country and Spain. By the terms of that armistice neither side can move any more troops into disputed territory.

How to overcome this objection without risking the permission of Spain is a question for the shrewdest diplomacy.

Arrangements, orders have been given for all the troops in the Presidio at San Francisco, about 10,000, to proceed at once to Honolulu, but the transports carrying them are not to return. It is believed that these transports will not stop at Honolulu longer than a day and will at once steam across the Pacific to Manila.

So grave is the situation that orders were given at the White House that none of the officials of the war department should talk on the subject. Secretary Alger when asked about it said he did not desire to discuss the facts in the case. "You must see the president for any information," he added.

Adjutant General Corbin gave a similar answer when asked the same question.

The impending trouble may be far-reaching. The reinforcement of General Otis at Manila may cause trouble for the peace commission when it meets in Paris and the fear that German interference is at the bottom of Aguinaldo's bravado may drag this country into a struggle with the young emperor.

The troops designated for this expedition are the First Washington volunteers, Sixth, Seventh and Eighth California volunteers, Twentieth Kansas volunteers, Fifty-first Iowa volunteers, First Wyoming, First Colorado and First Utah battery.

The transport ships Zealandia and the City of Peking can be placed in this service within a few days. These two vessels can carry almost the entire 7000 troops.

It is possible that the Second Oregon and the First Tennessee volunteers will follow the first shipment of soldiers in a very short time.

General Otis' notification to Aguinaldo to withdraw his troops from the suburbs of Manila is said to be in direct obedience to orders from the war department.

General Otis now has with him at Manila 16,000 American troops. About 2000 more are now on their way to join him on the transports Scandia and Arizona. This would make his force 18,000 men without counting the naval command under Admiral Dewey.

Aguinaldo's forces have been estimated at 80,000. Of these but 8000 were armed with guns captured by Admiral Dewey from the Spaniards in the arsenal at Cavite. Possibly 5000 more of them are armed with rifles purchased by Aguinaldo in Hong Kong or taken from the Spaniards. The rest of the insurgent forces are believed to have nothing but the native weapons, spears and knives, etc., with which, however, they are desperate fighters.

Disposed to Delay the Meeting.

San Juan, Porto Rico, Sept. 9.—The Spanish evacuation commissioners seem disposed to delay the meeting of the commissioners. They say their instructions have not yet arrived, but are ex-

pected on the Alfonso XIII in the course of a few days. They intimate that even then they will need time to study them. The American commissioners have replied that the first meeting must occur before Sept. 12 under the terms of the protocol.

Miss Davis Slightly Worse.

Narragansett Pier, R. I., Sept. 9.—The condition of Miss Winnie Davis is not so favorable. Notwithstanding the hot weather of late, which taxed her strength severely, Miss Davis has been improving slightly until yesterday.

SIX NEW CASES OF YELLOW FEVER.

It Has Broken Out Among the Men of Colonel Sargent's Regiment at Santiago.

Santiago, Sept. 9.—Six cases of yellow fever have developed in Colonel Sargent's Fifth Immune regiment. The cases have been watched closely for several days, and in the opinion of Colonel Havard, chief surgeon of the military department of Santiago, the diagnosis is unmistakably correct.

The victims have been sent to the yellow fever hospital, and a strict quarantine has been established among the regiments which are encamped on the hills along the Morro road, about two miles south of the city.

There is a great deal of sickness in this regiment, but in the opinion of the surgeon no more yellow fever.

All the other regiments now doing garrison duty are in fairly good health.

No measles is felt by General Lawton or General Wood. The four members of the Fifth regular infantry who were sent to the yellow fever hospital 10 days ago when they embarked from the transports Knickerbocker from Tampa are doing well. The battalion is still isolated, but no new cases have developed.

The destination among the Cubans is still unknown. General Wood has issued 6000 francs a day, and is much weaker. He has taken but little nourishment during the last 24 hours, and is gradually sinking.

QUARANTINE IS STILL IN EFFECT.

The State Authorities of Alabama Have Given Notice That Passengers Must Have Health Certificates.

Athens, Sept. 9.—The yellow fever quarantine regulations being enforced in the southwest have not yet seriously interfered with railway traffic, but persons travelling in some of the states are put to inconvenience.

The Southern railway of Georgia has been advised that Greenville, Miss., requires health certificates.

The state authorities of Alabama have modified the roads that passengers will be required to furnish certificates that they have not been in an infected district in 10 days.

No other person than a citizen of Memphis is allowed to enter that city. The town is absolutely cut off from the world so far as outsiders are concerned.

Officials of the Central Georgia railway have been advised that no tickets can be sold through Memphis to western or southern points, and Texas business may be routed via New Orleans, Shreveport, Cairo. No persons will be allowed to ride on freight trains in the state of Alabama. This does not apply to mixed trains.

2 Republics in Philippines.

Madrid, Sept. 9.—The disorderly scenes witnessed in the chamber yesterday evening would have shamed a building. Fists and sticks were shaken in the air and invectives were to be heard on all sides. As a result, several duels are expected to take place.

It is understood here that Spain intended to bargain at the Paris peace conference, but the impression somehow prevails that a republic will be established there under the protectorate of the United States, Great Britain and Germany. General Polavaria the former captain general of Cuba and of the Philippines, who has just issued a manifesto intimating that he is ready to place himself at the head of a neutral political party, is understood to be recruiting a strong party of discontented liberals and others with the object, it is claimed of "restoring the military preponderance of the government."

Aguinaldo Rather Restless.

Washington, Sept. 9.—The war department would not discuss the report of strained relations between the United States forces at Manila and the insurgent forces under Aguinaldo. The impression seems to be, however, that Aguinaldo is rather restless and has given the United States authorities some uneasiness. No orders have yet been issued looking to sending further reinforcements to Manila, though several days ago it was announced that the three regiments now at San Francisco would, in all probability, go to Honolulu so that they might be in readiness to go to Manila if needed.
